## Why SPAIN?

### We are Professionals

Spain is known as the hottest country in culinary arts. Tapas are, by far, the most popular culinary trend in the world. Among many destinations in Spain, Valladolid is considered the Tapas Capital of the World due to the National and International Tapas competitions that are celebrated annually in this city.

You will Invest your time learning from the best while you have a unique culinary and cultural immersion

# Testimonials

**Jose Mateo Durán , alumni 2018**

“There are just not enough words that can explain the astonishing, unique, and incredible experience that I've had in my internship with E- Spain. What I love about the program is the concern on pairing you up with the best chefs who will work one on one with you and will push you to frontiers that you never thought could be achieved. The chef that I worked with became a mentor to me; and taught me about passion, dedication, attention to detail and hard work. I've got to eat some astounding restaurants like "El Meson de Candido", visited stunning castles and ancient Roman aqueducts. Attended many Spanish celebrations and ate "Tapas" like no other. This experience changed my life and pushed me to another level of gastronomy for my future.”
